"ST10366611 - TABASSUM ALLY – WEDE5020- POE – PART 1.pdf":

CONTENTS:

ESSAY:

Imagine building a life best suited for you for it to just be gone within a split second. Unfortunately, people around the world experience these kinds of situations. And after having done research, I came across an earthquake that occurred, taking down several towns in Turkey and Syria. The impact of the earthquake was severe with hundreds of buildings being destroyed, killing close to 50 000 people. It is nearly a month later, and the people of the land are still in need of shelter. It is devastating knowing they are unsure where their next meal is going to come from, and that they don't even know if their family members survived this tragic incident. Children are being put at a major disadvantage with there being no schools for them to attend. This situation has become a matter of concern. So, to add light in this dull time we want to do our part in helping the two countries affected by hosting a charity event. The aim of this charity is to raise funds to rebuild these beautiful communities. I urge you all to join us at the game night planned to start at 5:00pm every Saturday for the month of April at the ICC. There are going to be a lot of stalls to fulfill your needs, such as food, snacks and drinks. We will be playing mini games, have fun challenges against family teams and so much more. Tickets are to be purchased at the entrance. We also have a bank 4 account which you can deposit money into to help. Please note that whatever money raised on this game night and in the account will be sent as a donation to these countries. You may also donate items of clothing or some necessities if you wish. I strongly believe that by coming together we can help the people of Turkey and Syria get back on their feet.
